

2-3 OCTOBER 2015

Application of re-absorbable sutures
with cones in aesthetic medicine

WITH LIVE DEMO

WORLD
EXPERTS MEETING
BARCELONA **2015**

Course Director: Dr Roberto Pizzamiglio
Moderator: Dr Javier de Benito

INSTITUTO
JAVIER de BENITO

Dear Colleagues,

With great pleasure we would like to invite you to the World Experts Meeting (WEM) on application of resorbable sutures in aesthetic medicine in Barcelona (Spain), on the 2nd and 3rd of October 2015.

The collaboration between the **Instituto de Benito** and **Sinclair Pharma** will once again ensure the success of the event.

Resorbable sutures with cones have been used worldwide for three years with more than 84,000 treatments performed in 73 countries. These figures continue to grow as more doctors are using them.

Sutures with cones have achieved a few milestones since last year; mainly with important and prestigious clearances granted, such as the ANVISA in Brazil, the KFDA in Korea and the FDA in the United States, thus considerably increasing the number of doctors who use these sutures worldwide.

To ensure good understanding and participation, WEM is focussed on practical sessions and there will be both basic and advanced presentation of the sutures and techniques.

The first live demonstration case will explain in detail the basic technique to use resorbable sutures with cones correctly.

Further advanced live demonstration cases will follow with varying level of difficulty, performed by a number of different world experts.

Before each live demonstration, we will be explaining the indication of use with appropriate choices of sutures and anatomical considerations to ensure participants have a good level of understanding of each specific case.

We hope that this change of format will make the course more interesting by involving all participants in the practical consideration and bringing it closer to the everyday practice in our own clinic.

Our aim for all attending colleagues is to leave Barcelona armed with good knowledge and understanding of resorbable sutures, see the latest techniques and gain further insights to inspire new ideas.

It is a wonderful opportunity for us all to come together in Barcelona to share our experiences and expertise from all over the world.

I look forward to seeing you in Barcelona and thank you in advance for your active participation. Your enthusiasm will ensure the success of WEM 2015 and making it a useful, unique and pleasant experience.

See you all in October,

Dr Roberto Pizzamiglio

Friday 2 October 2015

Day 1

08.00 Registration

09.00 Welcome
by Dr. Javier de Benito

09.10 Basic techniques

- Patient selection, indication, premarks and key points
- Live treatment: Mid face and Jaw Line with straight and angle patterns

Coffee break

11.20 Advanced techniques

- Patient selection, indication, premarks and key points
- Live treatment: Mid face and Jaw line with U technique
- Live treatment: Mid face and Jaw line with Criss-cross technique

12.50 Techniques for Neck

- Live treatment with U technique
- Live treatment with Rein technique

Lunch

15.00 Techniques for Eyebrow

- Live treatment with L technique
- Live treatment with U technique

Coffee break

16.10 One step ahead:
Emerging procedures using suspension threads

- Personal techniques on Lip
- Personal techniques for abdominal rejuvenation
- Personal techniques for arms rejuvenation

17.50 Conclusion of the day

Saturday 3 October 2015

Day 2

09.00 Anatomy: Depth and Dangerous areas - Presentation and Videos of dissection

09.20 Collagen stimulation

09.35 Histological study in a live patient

09.45 Patient selection: Good and Bad patients

10.10 Complications: How to prevent them?

Coffee break

10.50 "My pride" - Best cases

12.40 Questions & Answers

Lunch

14.20 From anatomy to practical training in advanced techniques with latest generation of Hyaluronic acid

- Focus on temples and Mid face
- Facial contouring, Lips and Perioral area

15.00 Cutting edge therapies through collagen stimulation: the added value for your practice

- Collagen stimulation: science, efficacy and safety
- My first intention treatment to restore volume in Mid face with Polycaprolactone
- How collagen stimulation increased my patients satisfaction?

16.20 Combined treatments

- Polycaprolactone and sutures
- Hyaluronic acid and sutures
- Radio frequency and sutures

17.00 Conclusion of the WEM
